

oreativity, entrepreneurship and environmental stewardship are core social values nurtured in schools, homes, and communities everywhere, where all children are empowered to be creative thinkers and doers, and encouraged to make their very best ideas happen.

Two Bit Circus Foundation is a not-for-profit, section 501(c)(3), a Community Based Organization (CBO).

## Two Bit Circus Foundation

is an international nonprofit organization dedicated to driving change in STEAM education in school and in out-of-school contexts, by making learning playful, hands-on, and focused on innovating sustainably for our world.

The materials that fuel our programs don't come from the store—they're the scraps, spare parts, and overages manufacturing leaves behind, rescued from landfills and put into the hands of teachers, learners, artists, and inventors of all ages.

In 2024, Bentley Wills pledges financial and volunteer support to Two Bit Circus Foundation. Each year, we partner with a social impact organization and mission close to our hearts—and to our community. We share this with you not for donations but for inspiration. If you are inspired to donate, please do! Scan the QR code on the left. We hope you are moved to find similar organizations with likeminded values that are making a difference where it matters most: where you work, live, and play.
